INSTRUCTORS

Chien-hua Huang

Affiliation:
China Academy of Art
Website: https://www.chienhuahuang.com/
Instagram: https://www.instagram.com/chienh_h/
Short Bio:
Chien-hua Huang is an architect and design researcher based in Vienna, Hangzhou and Taipei. He completed his graduate degree in Greg Lynn Studio, at the University of Applied Arts Vienna in 2020. His latest research focuses on data-mining, machine learning, and participatory approaches in design and construction. He teaches at the School of Design and Innovation at China Academy of Art. He has been continuously working on intelligent interactive mechanisms in design tools for future emergent environments and resilience. His work has been exhibited internationally in museums such as the MAK Museum Vienna, 2014 Venice Biennale British Pavilion, etc.

Zach Beale

Affiliation:
University of Applied Arts Vienna
Website: www.zachbeale.com
Instagram: https://www.instagram.com/___zach_b/
Short Bio:
Zach Beale is an American student of architecture residing and studying in Vienna, Austria, at the University of Applied Arts. Zach studies under Greg Lynn, currently as a diploma student. His work focuses on the social and economic ramifications of ecology and technology, and how sustainable and lasting communities can develop during a time of climactic crisis through the aid of architecture. He focuses on the use of technology and digital tools to develop new methods of design and visualization that complement his efforts at researching viable future societies.
